Subject: Subsurface Sediment Coring
Attachments: [8-5-18.jpg](#)

Good morning,

The PRP group is preparing to core the first sediment sample for the day, aboard the Cayuse. Included is a photo of the crew loading the core tube into the Vibracore. The Cayuse is expected to visit the following target locations this Sunday/Monday (8/5 & 8/6):

- * SC-S248 (RM 9.45W)
- * SC-S254 (RM 9.65W) *** Split Sample Site
- * SC-S255 (RM 9.7W)
- * SC-S257 (RM 9.725W)
- * SC-S263 (RM 10.73E)

Site SC-S254 is flagged for split sampling. Oversight staff will notify the PRP group and the core processing facility once core is sampled.
